7. Press **ADD OTHER ACCOUNT...**

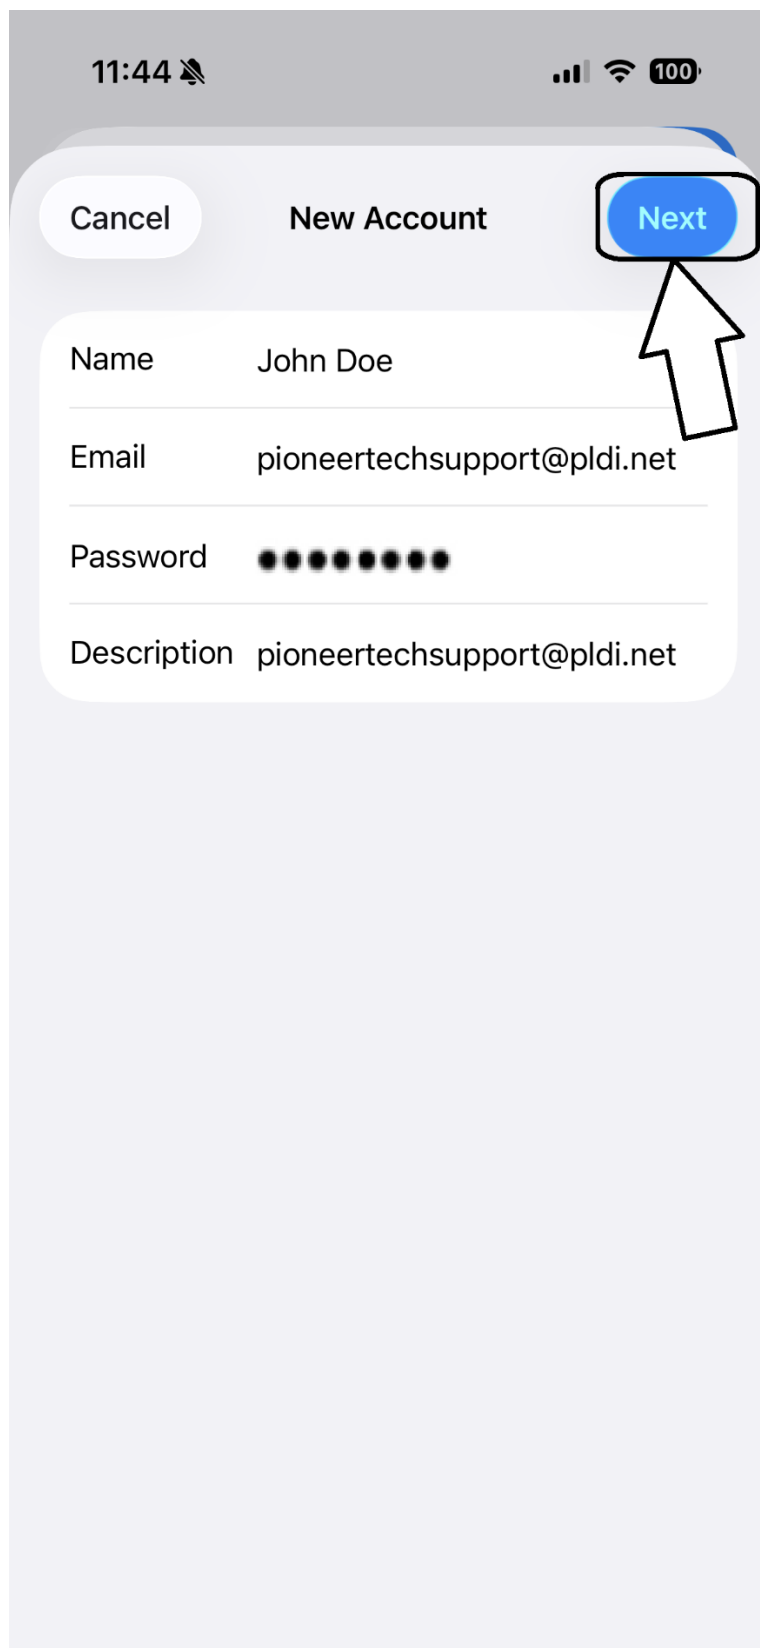

8. Press **Mail Account**

9. On the **New Account** screen, enter your **Name**, **Email**, **Password**, and a **Description** for this account (*Defaults to the email address*)

Then **Tap Next**

The screenshot shows a mobile application interface for creating a new account. At the top, the status bar displays the time 11:44, signal strength, Wi-Fi, and 100% battery. The app's header has three buttons: 'Cancel', 'New Account', and 'Next'. The 'Next' button is highlighted with a blue box and a white arrow. Below the header is a form with four fields: 'Name' (John Doe), 'Email' (pioneertechsupport@pldi.net), 'Password' (masked with dots), and 'Description' (pioneertechsupport@pldi.net).

Field	Value
Name	John Doe
Email	pioneertechsupport@pldi.net
Password	••••••••
Description	pioneertechsupport@pldi.net

10. Choose **IMAP** for your new account and enter the following information.

11. If successful, the Mail app will verify your email by taking you to this final screen. On the final screen you will be able to select which mailbox items you want to synchronize with this account.

If something is not correct, and you get an SSL error message please make sure you have the appropriate incoming/outgoing host names entered correctly and please verify that you are typing in the correct Email/Password on both Incoming/Outgoing Mail Servers. If it still does not work, please contact us.

If you are not sure of your login credentials, you can try a test login via webmail access at the following URL: [mail.pdi.net](mailto:pdi.net) (If you need assistance changing your email password call support at 1-888-782-2667)

Tap **Save** and you are done setting up your Pioneer Email on your iPhone.

12. Final step is to navigate back to the home screen and locate and open up the Mail app to begin sending/receiving email on your iPhone.
