Be sure every call to your business is answered and routed efficiently, day or night. The Cloud Communications Auto Attendant can be your organization's primary answering point or supplement a live receptionist; ideal for high-volume call environments or after-hours and overflow routing.

An intuitive web portal makes it easy to define menu structures and routing selections. Multiple schedule options simplify call management at different times of the day, day of the week and during holidays.

The Cloud Communications Auto Attendant can easily manage large volumes of incoming calls and provide multiple levels of call handling for any business environment.
