

Conference Calling Service - Secure and On Demand!

Conference Calling is quickly becoming the preferred method to conduct meetings. Now you can schedule your own conference call, send email messages to the attendees and manage the call while it is in progress.

- **Save valuable time**
- **Increase productivity**
- **Eliminate travel expenses**
- **Avoid missed or reschedule meetings due to inclement weather**

Use the Conference service for business meetings, planning family events, or reunions! Whether it's the weather, roads or convenience, you can be there without ***actually*** being there!

Stop worrying about how you will get everyone at one meeting, at the same time, at the same place! Sit back and relax! Connect people from across town, across the country or across the world with secure, quality conferencing.

Advantages of Conference Calling:

- No equipment to purchase.
- It's secure, cost effective, flexible and convenient.
- Meet anywhere...anytime...with anyone.
- Background noise and volume levels of attendees can be controlled. (no entrance/exit beeps)
- Manage your conference by an easy-to-use web portal. See who is talking, mute/unmute callers, adjust caller volume and/or remove callers from the conference.
- Administrators can carry on private conversations with any of the attendees during the conference.
- Subscribers can record the meeting and listen back to the conference. The recording can also be downloaded to their computer for a permanent record of the conference.
