SIP Channel

SIP trunking or SIP Channel is a flexible, cost-effective solution for businesses that are looking for ways to cut their communication costs without sacrificing voice quality. With SIP trunking, you can add or remove channels whenever you scale up or down, and you'll only pay for the lines you need.

Pioneer's SIP channel includes unlimited local and long distance calling to the contiguous 48 States and Canada. Additional charges apply for Alaska (\$.25/min) and Hawaii (\$.01/min). International calls will be billed at the Pioneer Long Distance tariffed rates.

***Monthly Pricing: SIP Trunking
\$19.95 each channel or call path***

Immediate and long-term cost savings on long distance communications

No additional equipment is needed if your phone system is already SIP-enabled

Simple, flexible scalability

Increased reliability of service

Eliminates costly PRI expenses

Optimal utilization of bandwidth by delivering both data and voice over the same connection

Why Pioneer Hosted

Business VoIP?

Hosted Business VoIP combines the benefits of a key system with the advantages and cost savings of VoIP.

Move your business forward with minimal effort and cost with Voice over IP (VoIP). Hosted VoIP from Pioneer provides enhanced communication tools and all the popular calling features, completely managed and hosted by our advanced and reliable IP network. Your business can avoid expensive capital investment while enjoying the many benefits of VoIP.
